## TextMyGov Announcement

Grant County is thrilled to introduce TextMyGov, a convenient and smart text messaging service! This service will enable residents to effortlessly receive important notifications and easily find specific information by texting the County.

Grant County will officially launch the new text messaging system to the public on **January 12, 2026**. Residents may receive a text message from **80946** from the County initiating the service. You can choose to opt-out at any time by texting **STOP**.

If you don't receive the initial message, you can choose to opt-in by texting the keyword "**Hi**" to the number **80946**. After sending the initial keyword, you will be asked to reply "**YES**" to confirm opt-in. Residents may receive notifications for **emergencies, events, closures, county wide updates**, etc.

You will also receive a contact card for the **County**'s two-way texting number. Save this to your phone and text it to find information and report issues. Even though this card is sent from the number 80946, the number you are saving is **575-574-4607**.

The County's use of this technology is another example of how our community enhances resident services by implementing modern solutions. We're excited about this new way of communicating with residents and look forward to sharing important County wide notifications. Other governmental entities across the country are utilizing this system with great success. Stay informed, stay ahead.

Sincerely,

Grant County
