**Special Revenues - FY 2010 Operating Budget**

**SPECIAL REVENUE FUNDS - RECEIPT CLASSIFICATION**

Special revenue funds have been modified from prior reporting formats. Each fund contains special revenue sources that DFA desires to monitor. Each special revenue category (by fund) is enumerated below. All other revenues that do not correspond will be reported in each respective fund in the revenue category designated as "Miscellaneous".

Fund 299, formally designated as "Other", has also been amended and is now recognized as "Other-Special". As in the past, fund 299, will reflect all funds that may be in existence at the local level but do not correspond to the parameters of the special revenue fund categories listed here. [Please refer to the note below for Fund 299]

**COUNTY DISBURSEMENTS**

Disbursements are now reported on a fund level; if further detail is required during the fiscal year the entity will be required to submit detailed financial data from their internal system.

# INTERNAL SERVICE - TRUST AGENCY FUNDS

## FY 2010 Operating Budget

### INTERNAL SERVICE FUNDS

The Internal Service classification should be utilized to account for the financing of goods or services provided by one department or agency to other departments or agencies within the same government or to other governments or non-for-profit organizations on cost reimbursement basis. (Examples: Motor Pool, Data Processing, Maintenance) Governments may choose to use Internal Service Funds for various reasons, including, but not necessarily limited to: Account for the total cost of each activity.

- \* Accumulate resources for replacing fixed assets.
- \* Combine certain governmental over-head costs so they can be redistributed to the benefiting programs.
- \* Isolate interfund services so that government fund types do not display revenues and expenditures twice within the same fund (i.e. usually the general fund)--once by the department furnishing the goods or services and once by the department receiving the goods or services.

Individual Internal Service Funds (at the local level) should be used to account for each type of service. Such segregation is essential to:

- \* Accumulate the costs of providing a service
- \* Ensure that the resources generated by one service are not used improperly by another service.

REVENUES include:

Charges for Services  
Interest on Investments  
Miscellaneous revenues

EXPENDITURES include:

Operating Expenditures  
Miscellaneous

### TRUST AND AGENCY FUNDS

The Trust & Agency classification should be utilized to account for assets held by a governmental unit in a trustee capacity or as an agency for individuals, private organizations, other governmental units, and/or other funds.

These include:

1. Expendable trust funds - account for assets held by a government in a trustee capacity, when both the principal and the earnings on the principal may be expended.
2. Non-Expendable trust funds - account for assets held by a government in a trustee capacity, when only the earnings on principal may be expended and the principal remains intact.
3. Pension trust funds - account for pension assets held by a government in a trustee capacity.
4. Agency funds - account for assets held by the reporting government in a purely custodial capacity; agency funds, typically do not involve a formal trust agreement. Rather, agency funds are used to account for situations where the government's role is purely custodial, such as the receipt, temporary investment and remittance of fiduciary resources to individuals, private organizations or other governments. (Example: Meter Deposits)

Agency funds are most commonly used to account for taxes collected by one government on behalf of another governmental entity.

REVENUES include:

Investments  
Interest on Investments  
Tax revenues  
Miscellaneous revenues

EXPENDITURES include:

General Government/Benefits  
Capital Outlay  
Debt Service
